

**6th International Conference on Information
Management and Machine Intelligence (ICIMMI-2024)**

Poornima Institute of Engineering &

Technology Dec 23-24, 2024

Motivation and objective of the special session

The advancement of ICT and Digital Technologies provides an effective medium for students, researcher and teaching professionals to reach out to the users as never before. This session is aimed to provide a platform to share their research work and findings, and to explore opportunities for collaboration and feedback under broader conference themes associated with the Information Management, Machine learning & Deep Learning. It also provides a forum for high quality reports on state-of-the-art theory, technology and applications of “Advances and innovation in Information Management, Machine Learning and information technology” as used in measurement, automation, scientific research, industry, academia and in other businesses. Rapid developments in these areas have resulted in more intelligent and accurate methods in manufacturing, telecommunication, automation, robotics, environment science, medical monitoring systems and laboratory equipment’s also. The initiative provides a focused and highly interactive forum where both researchers and technologists have the opportunity to present and discuss leading research topics, developments and future directions in this area. This session will also help scientist and researchers from different counties in networking/collaborating for better outcomes and knowledge sharing etc. Prospective authors from academia as well as industry are invited to submit their full papers in main conference ICIMMI-2024 which have not been yet submitted /published and that illustrate research, surveying works, and industrial application in all disciplines of Engineering for Intelligence based applications & automation activities, especially with the emergence of Data Analytics, AI, Machine Learning & Deep Learning or in following broad areas, but not limited to

1. Information Management
2. Information Security
3. Information Processing Techniques
4. Information Interpretation
5. Big data analytics
6. Data Analytics
7. Automations and robotics in construction
8. Artificial Intelligence and Soft Computing
9. Intelligent Software Methodologies, Tools and Techniques
10. Artificial Intelligence and Pattern Recognition
11. Multimedia Analytics using Machine Learning

12. Soft Computing Techniques in Power Systems
13. Intelligent Power Distribution System
14. Computer and Intelligent Communication
15. Adaptive Wireless Communication
16. Wireless Sensor Networks
17. Network Security
18. Cloud based applications for Machine Learning
19. Healthcare Automation using ML &DL
20. Intelligent Devices
21. IoT based automation
22. Industrial Automation over IoT
23. Industrial Automation over Robotics
24. Smart Systems
25. Smart Society
26. Information Security using Machine Learning
27. Network Security using Machine Learning

PUBLICATION

The conference aims at carrying out double blind review process. The papers submitted by the authors will be assessed on the basis of their technical suitability, scope of work, plagiarism, novelty, clarity, completeness, relevance, significance and research contribution.

DEADLINE TO REMEMBER

Submission	Sept 15, 2024	Acceptance	Oct 30, 2024
Camera Ready Submission	Nov 15, 2024	Registration (for inclusion of Paper in Proceedings)	Nov 20, 2024

For any other query please visit our conference website <https://icimmi.poornima.org> or write us back at :icimmi@poornima.org
